Subject: Pavillion Comment Response

Rick and Dom do you have time to do this today or should I reschedule for another time? I think that Ayn and Dave also have some ideas on how to share the load so I'd like to have them on the line too. Also, since Deb is the lab director now I'm not sure how much she wants to be involved in Pavillion and how much Dave wants to phase out so we could probably go over that too so everyone understands new roles.

If this time doesn't work please suggest a new one.
